PROJECTS

SongHouse
Songhouse.herokuapp.com/

A database app for music publishing companies to keep track of all their song information. Angular.js, Node, Postgres, and Hapi are some of the technologies used.

NashVestTN
nashvestn.herokuapp.com/

HackNashville 6 Finalist! Utilizing the MEAN Stack, Ionic, and Cordova we created a Mobile & Desktop app that helps non-profit organizations increase their community impact by engaging the Millennial Generation.

WORK EXPERIENCE

University of Michigan – ICPSR   August 2015 – present

- Establish information architecture for new sites, including selection of appropriate software, structure, layout; and consideration of best practices for usability and findability.
- Develop visual designs including color palettes and infographics
- Leverage open source software and tools (Drupal, Bootstrap, etc.) to facilitate rapid development while ensuring quality.
- Assist in site build-outs, using HTML, CSS, JavaScript, jsp and other technologies as needed.

Kindful   February 2015– August 2015

- Created landing/checkout pages for client events (HTML/CSS/Foundation/Bootstrap/JavaScript/jQuery/GitHub)
- Responsive design of web pages

Nashville Software School   July 2014– January 2015

Completed intensive six-month boot camp for software engineering and web development. Gained experience with front-end and back-end languages & technologies while building database-driven hybrid web applications. Collaborated on team projects, produced solo capstones, and developed pair programming skills through test driven development

Warner/Chappell Music Publishing   January 2014– July 2014

- Designed ads for industry magazines, and eBlasts (Photoshop/Illustrator/Twitter/Facebook)
- Enter new song information including writer percentages and publishing line into File Maker Pro database

EMI Music Publishing   September 2001 – July 2012

- Produced invitations and show flyers for EMI Events (Photoshop/Illustrator)
- Project Manager for office renovations; liaison between EMI, General Contractor and Interior Design Firm
- Created, updated and organized weekly hold/cut/action file and database

SKILLS

☑ JavaScript ☑ HTML/CSS ☑ jQuery   ☑ Bootstrap ☑ Photoshop ☑ Git/CVS   ☑ Foundation

EDUCATION

Belmont University   **Nashville, TN**   **1997 - 2001**
Bachelor of Business Administration   Major: Music Business   Emphasis: Management
